

SMART FOOD MANUFACTURER RECEIVABLES

Improve cash flow. Reduce Trade A/R costs.

The leading Trade Receivables (I2C) bot enabled workflow solution for Food Manufacturers.

SMART solves the complex operational and process challenges that companies face in turning their Accounts Receivables into cash.

From real-time trade credit risk analysis to integrating portal operations, SMART can provide actionable data to senior management and create optimal A/R efficiency.

Benefits of using SMART

- Cash flow improvements of 20-50%.
- Automate payment transactions, reminders, and customer communications.
- Credit to cash solutions that reduce borrowing costs and mitigate trade credit risk.
- Easily track marketing offers and administer marketing solutions.
- Accessible, real-time data to improve customer service, sales, relationships, and strategic decisions.
- Enables customers to make payments faster and stay within terms.
- Create order from chaos.
- Improve customer relationships in sales and finance.
- Create opportunities for sales growth.
- Improve spoilage deduction management.

Easy plug & play solution. Integrates in under 48 hours.

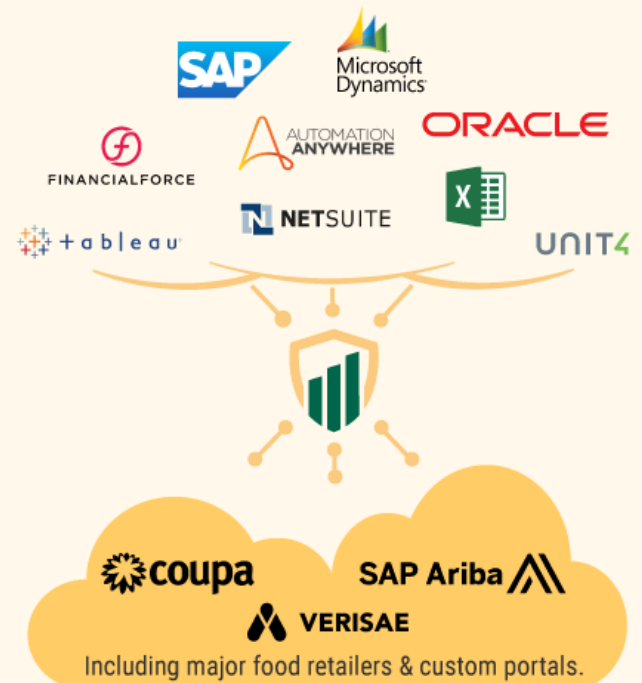

Start seeing immediate improvements when you integrate the SMART (I2C) bot-enabled, web-based workflow software solution. Achieve real-time data needed to make important decisions for collections, customer service, critical business financing and cash flow. Receive ongoing customer statuses, specific customer payment measurements and support that goes far beyond any Trade Receivables (I2C) workflow software solution. Manage it in-house or through TCD to maximize the effectiveness of your receivable's performance.

Designed for Mid-Market. Scalable to grow with you.

Isn't it time to get SMART with A/R?

RPA bot enabled and portal aware.

The managed A/R workflow solution.

Are your portals included?
 If you sell to a food retailer, then it is likely that SMART is portal-ready. Contact a TCD Specialist today for a review of availability and integration options.

Deduction Management case studies
 Learn how other companies effectively prevented and reduced deductions, while increasing claim recovery rates when using SMART with outsourcing.
